About METASH.

METASH Usage situation

Governance

You can participate in platform governance by stacking METASH.

The longer the stacking, the higher the voting power.

METASH holders can participate in the governance decisions of the platform using a distributed autonomous organizational structure.

Stacking Incentives

METASH stacking can earn governance token bonus, and users can generate METASH revenue by stacking METASH.

Purchase NFT Tools

Users can purchase NFT tools, level open, and level open facilities directly using by METASH.

You can use METASH to obtain legendary levels of NFT to increase your NFT holdings.

Global Dividend

METASH holders can participate in global shareholder stacking sharing.

In addition, game revenue can be equally distributed according to the global METASH stacking ratio.

METASH transaction slippage purpose(use)

- You can use METASH tokens to settle all transactions or withdrawals on the NFT exchanges.

- At the same time, 2% of transaction slippage will be deducted.

- 25% will be used for continuous iteration of the platform, global operations, community building, product development, marketplace incentives and permanent burns to ensure the continued display of tokens.

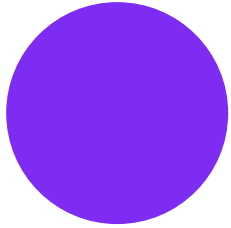

- 30% is used to add FOMO pool bonus, METASH permanence.

- 20% is used to pay LP dividends.

- 25% will be used to automatically burn all METASH for each Genesis NFT sales fund according to the smart contract.

- BNB from the sales money will be put into the METASH fund pool, a pancake exchange marketplace.

Genesis NFT Display.

Luxury (Advanced) NFT.

Total amount	Initial 10,000 sheets
Sale Price	3000 MEASH. All METASH sold will be burned.

Luxury (Advanced) NFT.

Luxury (Advanced) NFT Use

NFT game character

You will need to port your NFT character to enter the game. When entering the game, the user must purchase an NFT character from the NFT exchange marketplace to enter the game.

NFT game props

Users must purchase game related NFT props to enter the level. All NFT props are available for sale on the META SKINNY & HOPE Ecological NFT Exchange marketplace.

Extend the game character life

Having an NFT card can extend the lifespan of your game character and give you the ability to play gold for a longer period.

Maintain character and card attributes

NFT cards can retain character and prop attributes and can have stronger gold play abilities.

Luxury (Advanced) NFT Display.

How to get an NFT card Achieve method.

- META SKINNY&HOPE PLATFORM BUY
- Pancake Swap Trade
- Blind box
- Participate in Twitter Events

LV6-LV10	2000
LV10-LV15	3000
LV16-LV20	5000
LV21-LV25	10000
LV26-LV30	20000
LV31-LV35	50000
LV36-LV39	100000

FOMO Pool.

FOMO full source

100,000,000 METASH PRODUCED BY THE GAME

30% of transaction slippage

NFT exchange fee

The FOMO pool is set up with a relatively fixed bonus cap, although it adjusts dynamically based on project phase.

FOMO Pool Bonus Draw Conditions

There are three conditions for the draw, and if you meet one of them, you can win the bonus.

- Draw Condition 1: No one buys for 60 minutes
- Draw Condition 2: FOMO Solving Bonus Limit Reached.
- Draw Condition 3: No user enters the game for 60 minutes

FOMO Pool Bonus Winning Conditions

A. 50% of the prize pool will be awarded by purchasing the address with the largest purchase amount among the last 10 users with a transaction amount of 10,000 USDT or more before the draw. Next, you will win 10% of the prize pool for the largest purchase.

If the remaining 8 trading addresses are purchased, each user gets 5% of the prize pool.

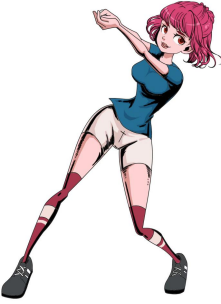

B. If the purchase price is the same, it is assigned to obtain a profit until the last user in chronological order.

The original purpose of the FOMO prize pool system is to make trading fun for all META SKINNY&HOPE users. At the same time, it is to increase the likelihood of obtaining a profit from the transaction itself. It is also to increase the transaction volume of the project to ensure the profits of all warehouse users.

C. At the 60-minute countdown, users are prohibited from entering the game, and even the last user will receive a LuckyStar bonus.

Sports-Fi.

The main problems of traditional sports fitness that Sports-Fi is trying to solve.

Sports Data Rights Attributes

Sports-Fi intends to use blockchain technology to make the collection of user data transparent and tamper-proof.

profit sharing

META SKINNY&HOPE is a traditional centralized platform, revenue is entirely acquired by the platform. We believe that these systems are unequal to users. META SKINNY&HOPE found a way here. It aims to allow users to profit from the Sports-Fi sports finance model.

Privacy and security

Sports-Fi is based on blockchain technology. In our system, the anonymity of the user's identity information helps the security and safety of personal information.

Blockchain Native Attempts

META SKINNY & HOPE is a Sports-to-Earn integrator that covers the benefits of all Sports-Pie products on the marketplace today.

Sports DeFi Financial Derivatives

META SKINNY&HOPE innovatively integrates DeFi liquidity mining to provide warehouse lock mining bonuses to all users and develop richer DeFi financial derivatives in the future.

Offline Store Introduction.

Honor

META SKINNY&HOPE is the first project in the marketplace that effectively implemented the functional Sports-to-Earn concept, and in the competition of 500 offline sensible sports experience stores, the international experience offline store in 2021 achieved the first place.

Blockchain+

META SKINNY&HOPE offline experience stores are distributed all over the world, and the number of open points of global offline experience stores has exceeded 1,000.

METASH payment channel

In the future, METASH issued by offline stores will be made available online, so digital experiences will drive real consumption.

Project Highlights.

1. METASH and METASHX dual coin mechanism, no reserve reserved tokens for founding team.
2. NFT burning and mining mechanism
3. FOMO Pool Perpetual Motion Mechanism
4. Blockchain+ with offline experience stores all over the world
5. All code and modeling are developed natively to distinguish it from similar projects.
6. Korean team, how to play cryptocurrency

Vision.

META SKINNY&HOPE currently has thousands of offline stores, and in 2020, blockchain team is formed to explore ways to combine offline stores and meta universe. After the team is formed, a white paper is written, META SKINNY&HOPE funds are established.
